Brand Executive @ Prem Industries India Limited | Brand Strategy · Product Visuals · Social Media Campaigns
Ghaziabad, Uttar Pradesh, India

Summary

I help brands show up with clarity, consistency, and purpose. As a Brand Executive at Prem Industries India Limited, I lead visual strategy across B2B and B2C segments — from product packaging and campaign assets to exhibition experiences and promotional collateral. My work sits at the intersection of creative direction and commercial intent: every asset I deliver is designed to move a business objective forward, not just look good. I collaborate closely with sales and marketing leadership to align brand communication with market positioning, ensuring that what we put out in the world reflects where the business is headed — not just where it's been. A background in Economics (B.Com, CCS University) keeps me grounded in the numbers behind the creativity — I think in terms of brand ROI, audience perception, and competitive differentiation, not just design trends. What drives me: building visual identities that earn trust, create recall, and support real growth. Open to conversations around brand strategy, B2B marketing, and creative leadership.
